

Organizational Leadership Certificate

Develop and cultivate your leadership skills based on actual organizational challenges and dynamics. The Katz School's focus on experience-based learning will help you hit the ground running with a Certificate in Organizational Leadership.

It's one thing to say you have a degree in leadership, but it's another thing entirely to say you have leadership experience. The Katz School's Certificate in Organizational Leadership provides the breadth of knowledge and the experience required to understand the complexity of leadership within the broad context of business in society. This intense leadership-building experience is representative of the Katz School's focus on experience-based learning.

You will engage in experiential learning through participation in a 14-week project course that involves "guest" board membership on a regional economic development or

non-profit board through the Leadership On Board program hosted by Leadership Pittsburgh, Inc. in partnership with the David Berg Center for Ethics and Leadership. Along the way, you'll provide a valuable service for regional economic development and get to know key stakeholders within the region.
