

Uber Tour

Come visit the Uber Factory at 35th and Smallman Street in the Strip District. Watch Uber cars being assembled, and learn about autonomous driving technology.

Date: Thursday, November 1, 2018

Time: 3:30 pm to 4:40 pm. (For those needing transportation--we will depart Mervis Hall at 2:45 pm.)

Restrictions: Since you will see and hear about technology that has not yet been publically released, Uber has asked that individuals from direct competitors (e.g., Argo AI, Aurora, Lyft, Waymo, etc.) not come for the tour. Also, due to the confidential nature of what you would be seeing, Uber has asked that all tour participants,

- Sign an NDA
- Do not take photographs or video
- Do not take notes
- Do not use information learned during tour.

Registration: Sign up early! The capacity of the tour is limited to 25 people (split between students and industry professionals). Students will be selected based on their participation in supply chain activities at the University and in the poster competition. If you sign up, your participation in the tour will be confirmed by October 7.
